

Meeting the Challenges of Health Care Reform

The Alcohol and Other Drug Policy Institute is California's statewide resource for training, consultation and technical assistance for substance use disorder treatment programs.

Meeting the challenges of health care reform will require high performing provider organizations. Our experienced team of trainers and consultants will help you build capacity at the administrative, operations, and clinical levels.

Give us a call at 916-572-8171 or visit our website at www.aodpolicy.org to learn more about how we can help your services be their best.

This service is supported by the California Department of Alcohol and Drug Programs under Contract 10-00214

A Free Resource for Treatment Providers in California

A broad range of services is offered to prospective and existing residential licensees; prospective and existing certified programs; prospective and existing Drug Medi-Cal programs; programs that provide detoxification services; DUI Programs; and Narcotic Treatment Programs.

ADPI has been a leader in providing training and TA to counties and providers in the area of preparing for health care reform. Although health care reform readiness is not a primary focus of the services provided in this project, ADPI's goal is to help providers build their administrative and direct service capacity so that they can successfully meet the challenges posed by health care reform.
