

STIGMA & HIV

WHEN

May 4, 2018

8am – 12:30pm

WHERE

St. Anne's

155 N Occidental Blvd, Los Angeles, CA 90026

By the end of the event, participants will be able to:

- Examine how stigma impacts HIV-related outcomes along the HIV prevention and care continuum among key high risk populations.
- Discuss the various types of stigma and the impact stigma has on increasing vulnerability to acquire HIV infection.
- Describe behaviors that perpetuate stigma in provider and patient interaction
- Receive best practices to engage in client-centered interactions
- Understand resilience and protective factors among high-risk populations.
